

**LEON D'ORO**

PIZZERIA VERONA

---

# WELCOME

---

It's a pleasure to have you here for a taste of our specialties. Our pizza, in particular, is created through research and the desire to offer a good and wholesome dining experience.

**We believe in finding the right balance between technological innovation and the preservation of traditions and values,** elements that allow us to be here to listen and reply to your demands.

We think that body and mind need nourishment and leisure: it is our commitment to astonish you with simplicity and politeness every time.

**We select the most suitable, genuine and freshest ingredients, paying great attention to quality, origin and also to the taste of our clients.**

---

**Our greatest satisfaction is  
not to present you with “our” best pizza,  
but to serve you “your” favorite pizza.**

# THE FLOUR

---

The flour we use is obtained by the **stone-grinding of 100% Italian, GMO free wheat**, grown with integrated agriculture systems, free of mycotoxins, pesticides and preservatives.

This stone 'crushing', differently from standard, conventionally cylinder-milled type 1 flours, **allows the fibers, enzymes and mineral salts of the wheat germ to remain unaltered**. Not only are the wheat's caryopsis, endosperm and germ a source of noble nutrients, they also have a very high fermentative quality and an elevated liquid-absorption potential.

With a temperature and humidity controlled **36-48 hours rising** we are able to obtain a dough that's low in salt but with an outstanding, light and crunchy wheat flavor, high in water percentage, fragrant and easy to digest.

## Stone-grinding of 100% Italian, GMO free wheat
